CERTIFICATION
May 30, 2017

I hereby certify that a public hearing was held April 24, 2017, on revisions to the State of Delaware State Implementation Plan to existing **Regulation No. 1120 New Source Performance Standards** by incorporating the federal new MSWL requirements in Subpart XXX, by reference, as a new standard (Section 30) that is applicable to municipal solid waste landfills (MSWLs). To satisfy the existing MSWL requirements of Subpart Cf, the applicability of Section 30 will be expanded to include both existing and new MSWLs. Once finalized, Section 30 and the State Plan will be submitted to the EPA for approval. There are three MSWLs in Delaware; all are operated by the Delaware Solid Waste Authority and will be subject to the State Plan and amended regulation.

On August 29, 2016, the EPA promulgated two regulations applicable to MSWLs. The EPA promulgated 40 CFR Part 60 Subpart XXX, which regulates the emissions from new (i.e., newly constructed, reconstructed, or modified) MSWLs and 40 CFR Part 60 Subpart Cf, which requires States to regulate emissions from existing MSWLs. The purpose of these two federal regulations is to reduce volatile organic compounds (VOCs) and methane emissions from MSWLs.

These amendments are to satisfy the US EPA requirements related to air emissions during equipment start-ups and shutdown as required by EPA SIP Call (80 FR 33840). The effective date of these amendments is July 11, 2017.

I further certify that the hearing was held in accordance with the notice required by Subsection 51.102 of 40 CFR 51.

Ali Mirzakhali, P.E.
Director
Division of Air Quality
